SUMMARY

Flutter Developer with 3+ years of experience building and shipping consumer mobile apps for Android and iOS across social commerce, dating, hotel booking, ERP and edtech. Skilled in Dart, Bloc/Cubit, GetX and Provider, with Clean Architecture, MVVM and the Repository Pattern. Hands-on with REST APIs, Firebase, Supabase, payment gateways, In-App Purchases and push notifications. Owns features end to end, from requirements with Product and UX/UI through testing, Codemagic CI/CD and Play Store / App Store releases, in Agile teams using Jira.

EXPERIENCE

Flutter Developer — Trivandrum, Kerala

Codesvera Infotech — Oct 2024 – Sep 2026

- Built and shipped consumer-facing features for **Flamor** (dating), **Valo** (hotel & chalet booking), **Waves** (ERP) and on-demand apps for Android and iOS, turning requirements from Product, UX/UI and Backend teams into production features.
- Developed reusable, testable Flutter widgets and modules using GetX, the Repository Pattern, Clean Architecture and OOP principles.
- Integrated RESTful APIs and JSON-based client-server communication, Firebase, Supabase, third-party SDKs, push notifications, deep links, payment gateways and In-App Purchases (IAP), with responsive UI across devices.
- Diagnosed and fixed crashes, UI rendering issues and performance bottlenecks using logs, Crashlytics and Flutter DevTools; wrote unit and widget tests and took part in code reviews.
- Worked with QA on test cycles and stable releases, using Git, Postman for API testing and Codemagic CI/CD for Play Store and App Store deployment.

Flutter Developer — Trivandrum, Kerala

Expereal Technologies — Jun 2023 – Oct 2024

- Developed and delivered the **BuyWalkin** social commerce app for Android and iOS from development through production deployment, building scalable modules with Flutter, BLoC/Cubit, Firebase and RESTful APIs.
- Integrated Firebase Auth, Cloud Firestore, OneSignal push notifications, payment gateways and Codemagic CI/CD.
- Collaborated with designers and backend developers, published regular updates to the Play Store and App Store, and optimised app performance.

PROJECTS

Lawtus Edu — EdTech Platform — *Next.js, React*

Kerala-based law entrance exam preparation platform for CLAT, AILET, KLEE, CUET and more.

- Platform features include live and recorded classes, mock tests with performance analysis, study materials and one-on-one mentorship for aspirants.
- Built shareable course-invitation cards showing course title, tags, fee and an official batch badge, so students and mentors can promote batches on social media.
- Developed the organisation website with a scalable folder structure, reusable components and structured state management.

Flamor — Dating Platform — *Flutter, Supabase, PostgreSQL*

- Real-time chat, location-based matching, push notifications and In-App Purchases on Supabase/PostgreSQL.

Valo — Hotel & Chalet Booking — *Flutter, REST APIs*

- Booking management and secure payments over RESTful APIs; released on the Play Store and App Store.

Waves — ERP Solution — *Flutter, GetX, REST APIs*

- Inventory, HR, invoicing, attendance and reporting modules for business operations.

BuyWalkin — Social Commerce *Flutter, Firebase, BLoC/Cubit*

- REST APIs, push notifications, payments and Codemagic CI/CD from development to store release.

TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter (Android/iOS), TypeScript, Next.js/React, React Native; basic Kotlin/Swift

Architecture & State: Bloc/Cubit, Provider, GetX; MVVM, Clean Architecture, Repository Pattern, OOP; reusable widgets, navigation, responsive UI

APIs & Integrations: RESTful APIs, JSON, GraphQL, OAuth2/JWT, third-party SDKs, deep links, push notifications (FCM, OneSignal), CallKit incoming-call notifications, Razorpay, Stripe, In-App Purchases

Backend & Data: Firebase (Auth, Firestore, Analytics, Crashlytics, FCM), Supabase, PostgreSQL

Testing & Debugging: Unit, widget and integration testing; Flutter DevTools; Crashlytics; performance fixes

Tools & Delivery: Git, GitHub, GitLab, Postman, Codemagic CI/CD, Play Store & App Store releases, Jira

Practices: SDLC, Agile/Scrum, code reviews, QA collaboration, Data Structures & Algorithms, AI-assisted development

EDUCATION

Bachelor of Computer Applications (BCA) Ramapuram, Kerala

Mar Augusthinose College 2019 – 2022
